Happy Visits

Revised 9-22-2010 sg

Jackson Creek Dental Group is passionate about **starting** our young patients off **right**, beginning with their first visit to the dentist. Our goal, when they reach age 18, is to have:

1. Fun at the dentist
2. No cavities
3. All back teeth sealed or composite bonded restoration in all the grooves
4. A beautiful smile that will last their lifetime - straight, full and healthy
5. Wisdom teeth out (necessary 95 % of the time)
6. Teeth whitened
7. Them out the door with a beautiful smile for life

We believe parents should start caring for their child's teeth **before birth by the mother taking fluoride** supplements to help protect their unborn child's teeth as they are forming. Get your Fluoride prescription from us when you first learn about your great news.

When your child reaches **age three** (sooner if parents see dark spots on the teeth), it is time to schedule a complete introductory new patient examination at Jackson Creek Dental Group. When scheduling this appointment, it should be made at the time of day the child is most **rested and cooperative**. Depending on the child's ability to cooperate, we may take x-rays if decay is suspected.

If your child is less than 3 years old or very anxious, it may be best to schedule a complementary **Happy Visit**. This visit allows the parent to bring the child to the dentist for an introduction and **"tour" of the office** where they get to ride in the chair, play with the air/water, and see what some of the instruments look like. It is also a time to **educate** the parents about taking care of their child's oral health needs.

After the Happy Visit appointment with the doctor, the next appointments will be with our **gentle hygienist** for their first dental cleaning and then with the doctor for the **new patient exam**, where all the future dental needs will be discovered and explained.

Our commitment to you is to ensure that your child's first visit to the dentist will be **special** and will exceed your expectations.

Yours for exceptional health,

Ron Ask, DDS, Craig Kinzer, DDS, Dwight Simpson, DDS, Leon Roda III, DDS, Jerhet Ask, D.D.S.
